Dear Motor Carrier:

This letter is to notify you of your USDOT identification number and to draw your attention to the requirement for marking of Commercial Motor Vehicles under section 190.31 of the Federal Motor Carrier Safety Regulations. A copy of this regulation is enclosed. Its primary purpose is to assist enforcement personnel in properly identifying motor carriers. Therefore, the submission of accurate data to the Federal Highway Administration is essential. The number also affords the public a way to identify motor carriers operating in interstate commerce.

If you are operating as a private motor carrier of property in interstate interstate commerce, as a for-hire motor carrier of property in interstate interstate commerce not subject to regulation by the Interstate Commerce Commission, or as an interstate motor carrier of migrant workers, this regulation requires you to mark all of your self-propelled motor vehicles (general purpose trucks and truck tractors) in accordance with the end cited.

The following USDOT identification number is assigned to the motor carrier identified above:

USDOT 233831

This letter is being sent to every motor carrier recently added to FHWA records. There has been no attempt to differentiate among private, migrant worker, for-hire or other types of motor carriers because many carriers conduct operations in a combination of these classifications. If you have questions about compliance with this requirement, please contact the office shown below.

Private motor carriers operating in interstate commerce under authority issued by the Interstate Commerce Commission (ICC) are not subject to this regulation, but are required to mark their vehicles under a similar regulation issued and enforced by the ICC. The FHWA expects for-hire interstate motor carriers subject to its safety jurisdiction to comply with applicable marking requirements. Motor carriers whose operations include interstate and private or some other type of operation, including interstate motor carrier of its own products outside of its own facility and operating as a for-hire motor carrier on the return movements may have the marking requirements contained in section 190.31 by displaying the identification number at a minimum.

If you receive more than one of these letters referencing different USDOT identification numbers, it is probably because of mergers, acquisitions or reorganizations that have occurred, but are not yet reflected in our records. Because divided record authority has been granted and separate numbers were inadvertently issued, if you receive more than one letter, you should contact the FHWA Motor Carrier office shown above to determine which number is most appropriate. When a determination has been made, please return the other letters to the FHWA Motor Carrier office with a brief explanation as to which number is being used.

If this letter is received at a location other than your principal office (e.g., a terminal or an area office) the letter should be forwarded to your principal office. If there has been a change in your motor carrier operation name or principal office address, please contact the information at the top of this letter and return it to the FHWA Motor Carrier office shown above (after noting your USDOT identification number).

Thank you for your cooperation in implementing this regulation.

Sincerely,

John F. Grimm
Director, Office of Motor Carrier
